

Load Leveler LLBD-21-045

AUTOMATIC LOAD LEVELER with TURNTABLE

- Height adjusts automatically as Boxes are Added or Removed
 - Can be adjusted to work with Varying Load Weights
 - Makes Workers More Productive

Benefits of LiftCOA Load Leveler

- **Automatically maintains pallets at a constant level and comfortable working height as layers of boxes are added or removed.**
 - **Pressure gauge and air outlet/pressure system is guarded to ensure longer life.**
- **Leveling is accomplished by a heavy-duty, reinforced rubber airbag. Once charged with shop air the LLBD-21-045 handles loads up to 4,500 lbs. After airbag is charged the Load Leveler can be disconnected and moved to any location in the plant. No need for constant air supply.**
- **The LLBD-21-045 is pneumatic so works with loads varying in weight from 400 - 4,500 lbs. One unit is flexible enough to work in several areas.**

Features

- 360 Degree rotational turntable
- Forkpockets for easy moving

Options

- Cover keeps to keep items from falling through the turntable.
- Solid turntable top
- Solid deck, no turntable
- Accordion skirting to keep underside clean from debris
